

100% CPU and MEM used

After some while of working, ZM eats all system memory causing CPU to goes to 100%.

- <https://github.com/ZoneMinder/zoneminder/issues/3772>
- <https://github.com/ZoneMinder/zoneminder/issues/3170>
 - `sudo su -s/bin/bash -c"valgrind -v -leak-check=full -show-leak-kinds=all zmc -m monitorid" www-data`

Workaround

Limit resurces in systemd service:

```
sudo systemctl edit zoneminder.service
```

```
[Service]
MemorySwapMax=0
MemoryHigh=5G
MemoryMax=6G

TimeoutStopSec=30
```

```
systemctl daemon-reload
systemctl stop zoneminder.service
systemctl start zoneminder.service
```

```
systemctl status zoneminder
```

```
valgrind -leak-check=full ffmpeg -rtsp_transport tcp -i rtsp:192.168.177.187/ch0_0.h264 -f null -
```
