Modes

- Tracker - Default mode.
- Monitor - see command

```
#monitor#pass#
```

- Call - see command

```
#call#password#
```

Getting single location

by call

If there is no authorized number set, every number can call tracker and get SMS with location. After 2 rings, tracker will reject call, and after a while caller gets SMS with location

```
http://maps.google.com/maps?g=N0.000000,E0.000000
Speed: 000.0 km/h
Time: HH:MM:SS Date:YY/MM/DD
```

```
IMEI: 123456789012345
```

by SMS

send command:

```
#smslink#123456#
```

Continuous tracking

See command

```
#at#
```

Events

No power

With GPS fix:

```
cut power  
alert!IMEI:123456789012345  
00.000000,N,00.000000,E
```

With no fix:

```
cut power  
alert!IMEI:123456789012345  
0.000000
```

Move alarm

```
Move alarm  
IMEI:123456789012345  
00.000000,N,00.000000,E
```
