Dell PowerVault Hints

- Your configuration is stored on your PERC that is connected to your MD1200 as well as drives 0-3. If you erase the drives and the configuration on the PERC & reboot both your MD & your host then you have reset the system.

- How to reduce FAN speed: Fun with an MD1200/MD1220 & SC200/SC220
- Dell md1000 how to silence it.
