

<https://docs.docker.com/compose/gettingstarted/>

docker-compose is running according description file `docker-compose.yml` in current directory.

- **docker-compose up** - Build, (re)create, start and attach to containers.
- **docker-compose up -d** - Build, (re)create, start and attach to containers. Detached mode (background)
- **docker-compose run** - Run a one-off command on a service.

Recreate containers:

- **docker-compose build**
- **docker-compose up -d**

docker-compose.yml

healthcheck

```
healthcheck:
  test: ["CMD-SHELL", "curl -f -u admin:admin123
http://localhost:8081/service/metrics/ping"]
  interval: 1m30s
  timeout: 30s
  retries: 3
```
