Get snap.jpeg from UniFi Protect Cameras  
December 9, 2019

How to get the correct username & password for a UniFi camera that has already been adopted by UniFi Protect:

```
Get into Protect UI https://protect.ui.com/
Select NVR you'd like to use
On left bottom corner click the Settings gear
Click Advanced
On the right side, you'll see Device password, click REVEAL
Copy the password
Connect to the Camera IP through https, e.g.
```

```
https://your.camera.ip.address
```

```
Login with username ubnt and password from above
Skip device setup, keep it in Unifi Video mode
Enable the "Anonymous Snapshot" on the camera
From there you should be able to access
```

```
http://your.camera.ip.address/snap.jpeg
```
