

CEPH inline compression

<https://docs.ceph.com/en/latest/rados/configuration/bluestore-config-ref/#inline-compression>

[BlueStore compression performance](#)

```
ceph osd pool set rbd compression_algorithm snappy
ceph osd pool set rbd compression_mode aggressive
```

Check compression ratios:

```
ceph daemon osd.2 perf dump | egrep -i
"bluestore_compressed|bluestore_allocated|bluestore_stored|compress._*_count"
```

or

```
ceph daemon osd.0 perf dump | egrep -i
"bluestore_compressed|bluestore_allocated|bluestore_stored|compress._*_count
|bluestore_write_big|bluestore_write_small"
```
